I was greeted with a pleasant smile and greeting upon arriving. She was very nice. Dr Lembke was very professional and easy going. He seemed to know what he was talking about and doing. I felt like he took the time to answer questions and explain what was going on. I would refer his services to others.

I love Lembke Chiropractic. The staff are wonderful. LaDonna is the nicest person you'll ever meet. She will bend over backwards to help get your insurance company on board. Dr. Lembke is efficient, quick, thorough, professional, knowledgeable with a great bedside manner. This office really does care that you feel better. Their care is genuine & not a lip service. They work with your schedule & they never get angry with you when you miss an appointment. If they haven't heard from you, they will call, not to be pushy for an appointment but to check in with you. Would recommend Lembke Chiropractic to anyone young or old.

Review for Scott D. Lembke

the staff at Dr Lembke's office are very friendly and do everything in their power to accommodate the needs of their patients. i have been seeing Dr Lembke for several years now and i feel if it hadn't been for him at this point i probably wouldn't be able to function at all.Although due to the magnitude of my injuries he cannot cure me he is able to maintain them so I am able to function. When i first came here i was literally a mess.

I came to Dr Lembke last year after experiencing debilitating back pain. I needed help immediately. They were able to see me the same day, and I felt so much relief that I was able to sleep that night. I continued to improve and am now pain free. I choose to have maintenance appointments and have had no other incidences. I appreciate how everything was thoroughly explained to me. This is a very professional office with the highest caliber of care.

1st visit: 10 minute paperwork and wait. Dr. Scott was excellent with what used to be called "bedside manner" , probed for root cause of pain problem. Verified using X-ray to validate answers and reactive feedback. Completed a very thorough exam in less than 1 hour.. After adjustment, nearly 100% improvement or reduction of pain.

★★★★★ by Louanda Engelke on 2016-04-06

Very caring and concerned people. Dr. Lembke asked alot of questions to ask me deeply what was bothering me before he gave me a treatment. He is currently working with my husband and his frozen shoulders and slowly they are coming around and Dr. Lembke told him that right up front. Ladana is absolutely wonderful and looks into your insurance for you. Heidi has given my husband massages and he said he could really feel the muscles relax when he was receiving it. All in all I would highly recommend the Lembke Clinic to everyone.

I Have known and trusted Dr. Lembke for over 10 years. He first gained my trust after having had my last child and injuring my back in childbirth . He gave immediate reliefe

when conventional medicine was unable too. I still have to go once in a great moon but when I do have to go to him I can feel confident in knowing I will soon feel better. My 14 old son currently goes because of his back being pulled by the heavy load of his back pack and due to improperly caring it. I have made a believer out of him and many others that I have referred to him and will continue to do so.

I was greeted warmly. The paperwork I filled was minimal. I didn't have to wait long to see Dr. Lembke. He was very thorough and asked a lot of questions about my health. He took x-rays and went over them with me. He adjusted me where he felt was most beneficial. I then had a massage and the massage therapist was very good and asked me questions during the massage. I left feeling better and will say that overall it was a very good appointment and experience.

I went in for an evaluation due to a motor vehicle accident. I had been previously seeing a different chiropractor that said he would be able to make me better than before, relieve my aches, pains, help me sleep better and resolve my migraines. After 4 months of intensive treatments I noticed little improvement. My primary care doctor sent me to Dr. Lembke for an evaluation and he was very thorough and he didn't promise me the world. He didn't sugar coat my condition or the position I was in. He told me what he could do to improve my condition and that some things will never be 100% better and anyone who guarantees that is incorrect. He was truthful, honest, and only stayed in the lines of his profession. He didn't try to change my doctors treatments, or sell me supplements or a new bed. It was refreshing to be told the facts

and not treated as if I was uneducated or inadequately knowledgeable about my condition. He is also reasonable and understanding to individuals circumstances and has reasonable rates and treatment options.

I was having pain in my neck and lower back. After one adjustment, I felt 10x better and I am now on a treatment plan for the next few months. He is very thorough with his explanations and a great doctor! I am happy to have found Lembke Chiropractic Clinic.

NPS: N/A

★★★★★ by Christine McCullough on 2015-12-16

I went to see Dr. Lembke because I had been in extreme pain for several days and it was not getting better. I honestly wasn't sure whether I should go to see an MD, my naturopath, or find a chiropractor. I decided to try a chiropractor first, even though the pain did not seem to be in my back. I chose Dr. Lembke because I knew he was a graduate of Palmer Chiropractic. It was a good decision! After a very thorough exam, he determined I had actually dislocated my hip and one of my lower vertebrae. After just one adjustment, I already felt a lot of relief. I had 3 visits the first week and knew I was well on my way to 100%. Since that first week, he's also helped me with a couple of other areas, and I will be continuing on a maintenance program. Dr. Lembke is very thorough and an excellent chiropractor. I would highly recommend him!

Dr. Lembke is amazing! He is very personable and cares about how you are feeling. He has let me come in before their office hours begin, just to fit me in his schedule in an emergency. He has great recommendations to get me moving and back to feeling normal and mobile. He cares about my health, my family and my well-being. His staff is so fun to talk with and also are kind, professional and friendly. They have such wonderful masseuses there too that really know exactly what to work on. You can tell they are well trained from their exceptional skills at knowing what points trigger what, what to muscles to work on, and knots to work out. I highly recommend his office for your chiropractic needs. They truly are a wonderful and amazing team.

Had my first appointment two days ago. Really friendly atmosphere. After little bit of simple paperwork had my exam done as well as x-rays. Dr. Lembke is a grate listener and gets straight to the point. Based on my symptoms and exam he provided my first treatment and just with in few hours I felt so much better. Today I had my second visit and Dr. Lembke had two different plans to treat my issues. It was totally up to me which way I would like to go. He provided detailed explanation of what is happening to my spinal core and showed it to me on my x-rays. So my plan is to keep visiting Dr. Lembke until all my issues are resolved. If you are looking for a good chiropractor, look no longer! Excellent clinic! Excellent team!

I am very impressed with my experience at the Lembke Chiropractic Clinic. My first appointment went really well. Dr. Lembke assessed all my concerns, took a few x-rays and at my next visit we had a plan. The office staff is very professional and up beat. They value my time by staying on a schedule. The location is perfect for me and the care is very affordable. I am recommending this clinic to my friends and family.

I have been going to Dr. Lembke's office off and on over the last 20 years. I love the small, friendly office and the staff is wonderful. I have always had success with the treatments I have received from Dr. Lembke; and like that there is no pressure to come back for multiple treatments like I had with previous chiropractors. I go once or twice a year to just to get realigned and feel much better. I would definitely recommend trying Lembke Chiropractic if you are in search of a chiropractor.

After a traffic accident, I could hardly turn my head to back out of a parking space. A friend recommended Dr. Lembke. I'd never been to a chiropractor and was nervous. Dr. Lembke was patient even when I shrieked on the first adjustment--not because it hurt, but because it is...surprising the first time. He explained everything, was friendly, smiled, his staff took care of the car insurance billings, gave me appointments I could keep without missing work, and the best part is I'm pain-free now. I'd totally recommend the Lembke team.

I first heard about Lembke chiropractic from my daughter Laura. She has gone to him for years. I was being kept awake in pain and he got me right in. When I left my first appt. I already had relief from the pain. We continued to fix the problem and I will continue to see him. I referred my husband to him for shoulder pain and again, Dr. Lembke was able to fix his pain as well. I recommend dr. Lembke to anyone seeking a great chiropractor. Kimberly Witt

★☆☆☆☆ by Anon on 2014-09-03

I arrived today after speaking with the woman at the front desk last week and confirming my appointment to be told by the same woman that I scheduled with that it, "didn't make it into the calendar." This is after experiencing equally poor customer service and inefficiency on her part. I will not be returning to their office due to her

inadequacies despite very much appreciating the skill of the masseuse I saw. If you do not care about waiting and possibly not having your appointment actually occur than go here otherwise I would recommend somewhere else.

From the moment I walked in I felt welcome. The receptionist was friendly and engaged. The waiting area was warm. The exam room and adjustment room were private. That in itself helped me feel respected; knowing other customers were not listening to my private conversation with the dr. I was pleased with how comprehensive my evaluation was by the dr. He has a wonderful "bedside manner". I especially liked that he wanted to make sure I understood his assessment and treatment plan.

My initial need for Lembke Chiropractic Clinic's assistance was driven by what I thought was arthritic pain in my hips that would sometimes be so severe it would wake me up at night with a deep ache. I knew I had taken a nasty fall from my horse many months back but did not really connect the two. After an x-ray, Scott advised me that there was no arthritis in my hips they simply were not level and that was causing the stress and pain. After undergoing treatment by Lembke Chiropractic Clinic I have zero pain in either hip and have been pain free from that fall for several years now. My entire family has been treated by Dr. Lembke for all manner of injury from car and horse accidents to trying to move heavy objects and throwing out a back or shoulder. We truly believe in the restorative work that Dr. Lembke provides and that maintaining our long term health with his continuing "structural" care has added to our quality of life.

★★★★★ by Hans Wittig on 2014-02-10

I am new to Chiropractic care. The doctor and staff were great. I was able to get a last minute appointment for a neck problem. Everything was explained in detail and the exam and questions were extensive. It was quite obvious that there are some things that cannot be helped with medications. After 3 weeks of pain there was instant relief - I was warned about popping sounds, my neck sounded like bubble wrap in the hands of a three year-old! I shouldn't have waited so long:) I look forward to my next visit.

I am a Chiropractor myself with thirty years experience both as a Dr. and a patient. I have an extensive accident history which includes 14 auto accident twice fracturing my neck and multiple serious sports injuries. Dr. Lembke utilizes advance technology on each visit to identify neural lesions. This places his care significantly above the average Chiropractic office. He also does sitting chair cervical(neck) work which reenforces the cervical curve which is critical with most cervical rehabilitation. If your primary issues is your neck I highly recommend Dr. Scott Lembke.

I met Dr. Lembke over 3 years ago after a back spasm sent me in a hunched-back search for a Chiropractor. I have been to several over the years due to my condition, but haven't looked since finding Dr. Lembke. His office staff is top-notch, and the services are stellar.

Dr. Lembke and the staff there are amazing! I had so many fears from bad experiences with chiropractors in the past that I cried when I went in but Dr. Lembke made me feel comfortable and was always considerate of my pain level. I refer all my friends there because he has made such a difference for me!

This is a well run, professional office with a highly experienced, caring doctor who takes genuine interest in the health and healing of his patients. Dr. Lembke restores my faith in chiropractic. For those of us that are fed up with charlatans or practitioners who behave more like high-pressure timeshare salesman than healers, Dr. Lembke is

a welcome, effective antidote. Here you will find a gentle, respectful doctor who is thorough, fully listens, and is dedicated to effectively and efficiently restoring your health.

I always leave feeling better than when I went in. That's true, of course, when my back or neck are bothering me, but it's true even when I feel good and think maybe I don't need the appointment. Turns out I can feel better.

My right leg decided it did not want to work and was very painful at the hip area..had an adjustment and got immediate relief. I have learned not to wait when something is amiss....get it fixed immediately before it becomes a serious problem. Dr. Lembke has been my chiropractor since 1987 and has never failed to help my issues (even following a car crash causing neck damage).

Dr. Lembke is a knowegable Chiropractic professional who is getting the job done for me . He is thourough, strong and unwavering and patient. Sessions only take five minutes or and he understands my needs and weeknesses. When he cracks my back, he does so with an understanding of the situation and does the work with impunity. I believe he will help you if you see him. Thomas Recknagel

I have been going to Dr Lembke for treatment since 2004. When I saw him my lower back pain was so bad I practically crawled into his office. My pain was so severe I couldn't do much of anything without debilitating pain. Today 10 years later thanks to Dr Lembke I enjoy pain free living. The key for me is maintaining a consistent treatment plan once every 2-3 weeks. I do not have enough good things to say about

this Man. He is caring, knowledgeable and extremely professional. If you are suffering don't wait like I did! If you want more than a pain pill from your primary care Dr and want to live without pain do yourself a favor and call him today! :

Before I started going to Dr Lembke, I never considered Chiropractic care as a way to help with my headaches and stomach issues. I used to take very strong meds for acid reflux and a lot of aspirin and they only helped a little. Happy to say I now rarely take over the counter meds for my stomach and my headaches have been gone for a long time now.
